PROFESSIONAL SUMMARY

GIS graduate (Geography — Surveying & GIS Division, Damanhur University) with an academic and applied foundation in GIS since 2021, and hands-on delivery of a complete, department-ranked applied GIS project. Strong in ArcGIS Pro, ArcGIS Desktop and QGIS for spatial, hydrological and network analysis, geodatabase management and map production, with Python/ArcPy for automation and a technical-office background in AutoCAD/Civil 3D — able to carry a project from field survey through to finished map and report.

EDUCATION

B.A., Geography — Surveying & Geographic Information Systems Division **2026**
Faculty of Arts, Damanhur University | Grade: Very Good

GRADUATION PROJECT — APPLIED GIS EXPERIENCE

AI-Integrated Smart City Project — Hurghada, Red Sea Governorate **2023 – 2025**

- Ranked 1st in the Surveying & GIS Division for project execution (Class of 2025/2026).
- Carried out full field-to-finish workflow: field survey with Total Station, GPS Station, Level and Echo Sounder, followed by coordinate processing, spatial analysis and cartographic output.
- Delivered project outputs across ArcGIS, Civil 3D, AutoCAD and Surfer, including terrain models, contours and thematic maps.
- Completed structured practical training on surveying instruments and GIS/CAD software (Damanhur University, in cooperation with Misr Public Library – Damanhour) — Grade: Very Good.

WORK EXPERIENCE

QA Tester, Findo Group **Oct 2025 – Present**
Remote, full-time

- Test web and mobile products before release, document issues with clear steps, severity and screenshots, and track them until closed.

Data Entry Specialist, Findo Group **Oct 2023 – Oct 2025**
Remote, full-time

- Entered and maintained records in Arabic and English, validated data against sources and prepared reports in Excel, Word and PowerPoint.

TECHNICAL SKILLS

- **GIS & Spatial Analysis:** ArcGIS Pro, ArcGIS Desktop (ArcMap), ArcGIS Online, QGIS, Global Mapper — spatial, hydrological and network analysis; topographic modeling; geodatabase management; georeferencing; digitizing & editing; ModelBuilder; map production
- **Remote Sensing:** Vegetation cover, water cover and agricultural land-suitability analysis
- **Programming & Automation:** Python, ArcPy — custom analysis tools, spatial calculations and data-validation rules
- **Technical Office / CAD:** AutoCAD (certified), Civil 3D, InfraWorks, SketchUp, Surfer — drainage & rainwater network design, BOQ/quantity take-off, cut-and-fill calculations, execution plans, longitudinal sections
- **Surveying Equipment:** Total Station, GPS Station, Level, Echo Sounder, Sokkia Link — coordinate processing, DEM & contour generation
- **Office & Reporting:** Microsoft Word, Excel, PowerPoint — technical reports and project presentations

CERTIFICATIONS & RECOGNITION

- Certificate of Excellence — Graduation Project, Damanhur University (2025/2026).
- Official Certificate of Proficiency — Surveying Instruments & GIS/CAD Software (ArcGIS, Civil 3D, AutoCAD, Surfer), Faculty of Arts, Damanhur University; and Practical Training Certificate on the same instruments/software, Damanhur University & Misr Public Library – Damanhour (November 2024 – June 2025), Grade: Very Good.
- AutoCAD Certificate (professionally accredited), plus a combined certificate covering AutoCAD, Civil 3D & Surfer.

ADDITIONAL

Languages: Arabic (Native), English (Good). Comfortable working under pressure and collaborating within multidisciplinary technical teams.
